

Notes				
#1	During six-week taught modules, such as this one, the course week runs from Friday to Thursday: this facilitates students to do most of their weekly study at any time from Friday morning to Monday evening.			
#2	The reference to 9am Friday morning is a convention. No teaching event occurs at that time. It simply marks the beginning of the 4-day period within which students should do the bulk of their studying. The formative assessment can be submitted at any time in that period, the deadline is 11.45pm on Monday.			
#3	All times are GMT	#6:	Online event - attendance advised	
#4	Activities are online, except for occasional key events onsite	#7:	Online assessment - required	
#5	All webinars are recorded & shared on the platform.	#8:	Online submission - required
